

THORNTON STATION EVALUATION

144TH AVENUE WEST OPTION

144TH AVENUE EAST OPTION

144TH AVENUE SPLIT OPTION

144TH AVENUE WEST STATION CONCEPT

144TH AVENUE WEST – IMPACT ILLUSTRATION

RTD RECOMMENDATION:

RTD recommends the 144th Avenue West Station option as the preferred alternative because it would provide the best access for automobile, transit, and pedestrian/bike modes via York Street, an established major roadway. The station option will be further refined in the FEIS in consultation with the City of Thornton to minimize impacts to the proposed development.
